NOTES

- [1] Auxiliary contact rating - see page 5, note [2].
- [2] Inductive load life, 20,000 cycles.
- [3] Rating are for double break/make terminal type 6.
- [4] Alternate contact configurations and other special models available upon request. Please contact factory.
- [5] Back EMF suppression to 62 Volts Max.
- [6] Suitable for transfer between unsynchronized AC power sources at rating shown.
- [7] 200 Amps resistive, 25,000 cycles only, terminal style 6.
- [8] Economizer coils have a lower resistance primary coil for faster operate time. Once relay operates, the coil switches to a higher resistance for lower power drain. Do not ramp up voltage on these coils.
- 9. This series drawing is for general use only. Please consult factory for special requirements.
