RE: Change to Label Marking

Dear Valued Customer:

L3 ElectroDynamics, Inc. has decided to change our label font color from white text on a black background to black text on a white background on all Elapsed Time Indicators and Event Meters that currently receive label markings. The label and ink will stay the same and meet all the requirements of MIL-DTL-7793 and MIL-STD-130. Below are examples of our current and future label markings. If you have any questions, please contact Bo Zwolski Quality Manager, at bo.zwolski@L3T.com or 513-943-2250.

Sincerely,
L3 ElectroDynamics, Inc.
